Bosch B Series Intrusion Control Panels

Bosch B Series control panels are designed to integrate with access control, IP video cameras, and fire and automation devices. They are the most advanced solutions available for small- to mid-sized applications with support for up to 96 Points, 6 Areas, and 100 Users.

- ▶ Use Bosch IP camera integration video motion detection to activate points on the panel, triggering camera actions such as sending video snapshots via email
- ▶ Supports a full range of intrusion detectors and RADION wireless
- ▶ Certified for residential fire applications
- ▶ Integrates with wireless smart home devices—such as lighting controls, door locks, and temperature sensors—for automation and remote monitoring

Simple and fast installation with minimal training

- ▶ Account assistant walks installer through panel programming
- ▶ Cloud connectivity makes setting up panel communications easy
- ▶ Videos and online training available on mobile-friendly Bosch website

Create recurring monthly revenue (RMR)

- ▶ Our mobile-ready Installer Services Portal offers single sign-on for secure and easy access to Bosch communication services, including cellular data plans for control panel communications and cloud connectivity for remote programming and end user app connectivity.

System Overview

- ▶ Supports up to 96 points using a combination of hardwired or wireless points for installation flexibility and up to 6 areas with perimeter and interior control
- ▶ On-board Ethernet port for Conettix IP alarm communication and remote programming, compatible with modern IP networks including IPv6/IPv4, Auto-IP, and Universal Plug and Play
- ▶ Installer-friendly features including on-board USB for easy on-site RPS programming, plus plug-in PSTN and cellular communication modules for simple installation and future proof upgrades
- ▶ Notifications with email and text messaging, free Remote Security Control app for Android and iOS mobile devices
- ▶ Programmable keypad shortcuts, situation sensitive on-screen help, and a bilingual user interface make system operation simple and easy

Control Panel Options

The control panels integrate intrusion and fire, providing one simple user interface for all systems. The scalable panels are available with 16 to 96 points and support for up to 100 users for small to midsized applications.
